[Hydro Power Fluid]

Men with well-cared skin are attractive. With the new Hydro Power Fluid, skin care gets men's stuff – simply and efficiently.

effective. strong. masculine.

The modern man puts great importance on a well-groomed appearance. Many VIPs, athletes and actors set a good example. They know about stress factors that even can bring robust men's skin out of balance. Therefore, they use professional cosmetics that is specifically tailored to male skin requirements. Men's skin is more robust than women's skin: it is thicker, large-pored, more oily and often irritated through shaving. For this reason, it needs a different care than women's skin.

The Hydro Power Fluid stands for concentrated power in just one product. It combines everything a man needs to efficiently care for the skin. Triple hyaluronic power provides effective moisture and smoothing of the skin. The fluid vitalizes, helps to improve the elasticity and visibly reduces rough skin and wrinkles – all in just one step. For a refreshed and tougher skin!

- Moisture, refreshment and vitalization
- Triple hyaluronic effect for refreshed, vitalized skin
- Ultralight formula ensures refreshment without greasy feeling
- Subtle fragrance, combinable with every After Shave
- Perfect after shaving, also suitable for beards
- For every skin type

[Excursion Hyaluron]

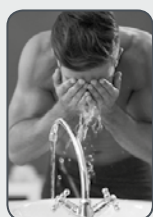

Hyaluronic acid is a natural element of the skin. The endogenous connection has the exceptional ability to bind a huge amount of water. This way, a hyaluronic acid molecule can enlarge its volume by thirty times and thus has a plumping effect. That is why hyaluronic acid is a determining factor for a firm and refreshed skin.

The Hydro Power Fluid has a double hyaluron power! For the optimal effect, a technical precise combination of several hyaluronic acid types is used – high molecular and hydrolysed, splitted hyaluronic acid. For an immediate firming of the skin and improvement of elasticity.

This is how the GREEN PEEL® Classic works

The GREEN PEEL® Classic herbal peeling triggers a complete skin renewal in just 5 days – on an entirely natural way. This process is only triggered by the power of selected herbs, which are massaged into the skin using a special technique. This leads to peeling of the uppermost skin layer. This way, deep impurities and strong cornifications are completely removed. At the same time, the highly effective herbs work their way into the deeper layers of the skin to activate the cell metabolism. This stimulates the blood circulation and boosts the oxygen supply. The skin regeneration takes place like in a time lapse. Dead skin cells are removed and newly formed cells make their way to the surface.

.....|..... This is how your GREEN PEEL® Classic *schedule* could look like|.....

Thursday:

You have your GREEN PEEL® Classic appointment in a certified institute. The treatment finishes after approximately 90 minutes. Your skin will be reddened and you will feel a tingle on your skin. As home care, you receive special care products you will need to use daily from today on.

Friday:

Your skin is calmed now. You will not see any peel of the skin yet. Nevertheless, the herbs already work in your skin.

Saturday:

Your skin starts to peel.

Sunday:

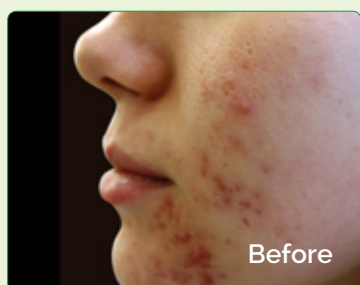

The regeneration process of the skin reaches its peak. Your skin starts to peel completely. Make yourself cozy at home and let the soul dangle.

Monday:

For the first time, you admire your skin, which is softer, fresher and especially purer. You have your final beauty appointment at your aesthetician – the so-called Beauty Finish treatment. Still available remaining skin peels during the massage. Your skin will be strengthened with an ingredient ampoule and a mask.
